Mfg. of CNC VMC Components

**WHERE OUR PRODUCTS DEFINES THE QUALITY**

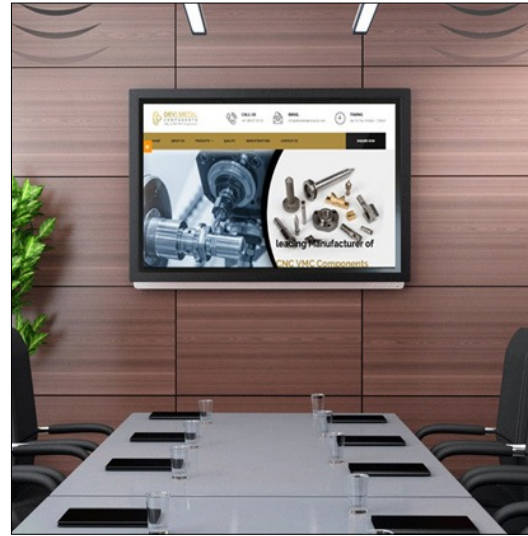

## Who We Are

Devi Metal Products established in the year 2002 and are the leading manufacturers, suppliers and exporter of CNC & VMC Machined Brass Precision turned components specialized in Stainless steel. We do also manufacture in material Brass, Copper, Aluminum, Mild Steel and possibly in all kinds of metal material with various finishes and with any dimensions & specifications.

We not only believe in producing the products as per our company product range but we also produce products as per customer customization with competitive prices, better quality and on committed delivery time.

Our products are highly appreciated for its superior quality and durability. Our products are widely used in numerous applications and cater our best services to many industries.

## Industries We Serve

Automobile and Auto Ancillaries Industries

Clothing Manufacturing Industries

Oil, Gas and Petroleum Industries

Agriculture Equipment Industries

Defence and Military Industries

Artillery and Naval Industries

Aerospace Parts Industries

Energy Power Industries

General Engineering

Railways Industries

## Our Mission

At Devi Metal Products our mission is commitment towards customer satisfaction by rendering best quality & services. We mission to retain ourselves for continuous Improvement, growth, success, dedication and Integrity which produces the profitable growth for our employees, customers and investors.

## Our Vision

At Devi Metal Products our mission is commitment towards customer satisfaction by rendering best quality & services. We mission to retain ourselves for continuous Improvement, growth, success, dedication and Integrity which produces the profitable growth for our employees, customers and investors.

## Quality Assurance

We at Devi Metal Products believes that Quality control (QC) is the most important set of procedures intended to ensure that a manufactured product or performed service adheres to a defined set of quality criteria or meets the requirements of our consumer and intend to deliver the High – Quality end product.

We provide 100% quality assurance performing the activities such as process checklists, process standards & documentations, process modifications if required, checking pre-determined objectives, audits the project, Implement the actions for improvements in process.

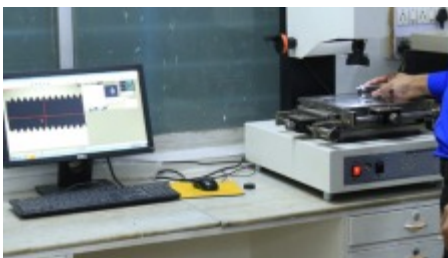

## Inspection

We identify the material quality by inspection through software testing and equipment's. Our main goal is customer satisfaction, we guarantee & commit in terms of quality to our consumers. We always show our concern in quality and not in quantity. We build our customer requirement into every aspect of a product from design to final recycling.

## Quality Control

We offer superior & safe products performance. Being the integrity of their mechanical design & the quality of materials used in their production. Quality Planning, Test Equipments, In-Process & Inter-Process Inspections, Equipment Calibration & Maintenance, etc are some of the major part of our quality control program.

# Aerospace Components

# Agriculture Parts

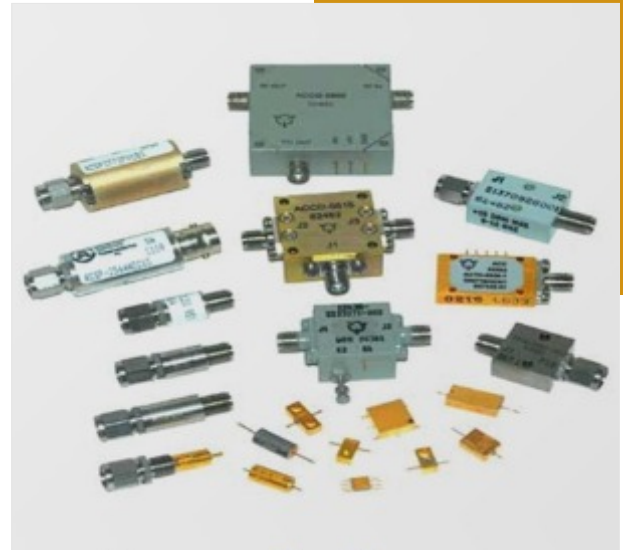

## Automobile Components

## Cloth Machine Components
